credits will be requested
for nurses, social workers,
licensed counselors, law
enforcement, emergency
medical services,
teachers, domestic
violence advocates, and
master certified health
education specialists.

safeTALK is a 3-hour alertness workshop that prepares anyone over the age of 15, regardless of prior experience or training, to become a suicide-alert helper. Most people with thoughts of suicide don't truly want to die, but are struggling with the pain in their lives. Through their words and actions, they invite help to stay alive. safeTalk-trained helpers can recognize these invitations and take action by connecting them with life-saving intervention resources.

Skills Obtained

By the end of the workshop, participants will be better able to:

- Dispel myths about suicide
- Identify indicators of suicidal risk
- Identify and use the 4-step TALK process with someone at risk of suicide
- Refer a person at risk of suicide to appropriate resources
